Sayyid Al-Hakeem: Prioritizing Public Interest over Private Interests, Everyone's Responsibility

His Eminence Sayyid Al-Hakeem, Head of the National State Powers' Alliance and Leader of Al-Hikma National Movement, met a large group of female leaders of Al-Hikma National Movement in Maysan Governorate, praising Maysan, its history, its distinctions, and its achievements, and offering condolences on the anniversary of the martyrdom of Sayyida Al-Zahra (PBUH), explaining that the path of Sayyida Al-Zahra (PBUH) was one of defending the truth and preserving Islam without shedding blood.

H.E. stressed the importance of maintaining the approach of moderation and centrism and of prioritizing the public interest over private interests, placing on everyone the responsibility of belonging to the martyred leaders and of being an extension of them and their path, pointing to the traits of Shaheed Al-Mihrab (may his soul be sanctified), namely a down-to-earth character, humility, reflection on the Holy Quran, and organizing, managing, and investing time in everything beneficial.

H.E. affirmed the importance of steadfastness in work and striving to make an impact, targeting the closest circles to the organized member first, then the next closest, and called for showcasing the movement's identity and taking pride in it, explaining that Al-Hikma National Movement has a shining history of belonging to the path of the martyred leaders, and stressing the importance of refuting and dismantling misconceptions, enduring hardships, and staying informed of the political position.
